SCANDINAVIAN DESIGN

With style, functionality and innovation

Scandinavian design and Swedish quality have always been our guiding principles for the development of every KABE model. Here, style and functionality go hand in hand. The result is luxurious and comfortable caravans with a timeless feel and many innovative solutions that provide you with a mobile leisure home beyond the ordinary.

KABE – an investment in your quality of life

A caravan from KABE is an investment in your quality of life. We leave nothing to chance. For more than 65 years, we have been developing and manufacturing leisure vehicles that allow you to travel safely, securely and environmentally friendly on the roads and enjoy the utmost comfort at your destination.

Every detail is carefully designed to provide you with the very best. We go all the way – and then some – in our effort to equip our caravans with smart solutions and features that make every day in your caravan as smooth as possible.

KABE quality is built into our unique construction and continues with our in-house manufactured carpentry, practical interior details and technical solutions that are always at the absolute forefront of the industry.

You may not notice all these things right away when you compare a KABE to other brands, but they are there to make life in your caravan a little easier each day.

All the "extras", are simply included with your KABE.

Some examples are:

- Insulated energy efficient windows.
- Sound-insulating ceiling.
- Smoke detector in the bedroom area.
- Pull-out heated ski storage with lighting.
- Dryer cabinet with a custom designed drip pan for drying of shoes and a heated shoe compartment inside the front door.
- Many models feature a coat-closet in the entry.
- Updated design for the entry with room for a larger TV, up to 32 inches (except in CTDL and CXL).
- Air vent in the bedroom.
- Built-in kitchen fan with lighting and two speeds.
- The best refrigerator ventilation on the market is included in most models.

Do you want to know more? See pages 28-35.

Luxury from the inside and out

Design, safety and quality – that's what KABE stands for. The caravan's classic features are immediately recognizable on the road. And when you get to know your KABE, with all its thoughtful comforts, you will appreciate the true value of the design.

Smooth sheet metal exterior is standard for all our caravans. Gemstone and Royal feature distinctive red accents that highlight the caravan's windows and enhance the elegant and aerodynamic shape of the body.

The exclusive Imperial caravans are equipped with our unique Innovation Design exterior and extra bold graphics, printed directly on the body. With high UV resistance, the colour remains vibrant for many years without fading. KABE's unique ID-exterior inspires the creation of design elements that follow the shape of the caravan and complement the placement of windows and doors.

Our modern Estate-models feature a brand new sporty exterior design. Decal graphics with a 3D feel signal speed while making a stylish statement.

The brake lights are custom designed with a KABE logo and our aerodynamic body and rear wing have been developed to reduce wind resistance. All our models have large windows that provide the brightest indoor environment possible.

Starting in 2025, our Gemstone models include a window in the front door.

At KABE, we put a lot of effort into continuous development of our caravans. Our goal is always to be at the forefront or even one step ahead. To provide you, the KABE-owner, with the very best – a reliable caravan that maintains the highest standard and an exclusive feel inside and out.

Modern, stylish and elegant

In a KABE caravan, you always experience comfort and quality in every detail, every day. Materials are selected with great care to meet your expectations in terms of both aesthetics and durability. The look is contemporary yet classic. You can rest assured that your KABE will always feel modern, stylish and elegant.

The colour of the interior creates a beautiful and inviting atmosphere. Gemstone, Royal and Imperial feature the wood laminate Atlas Zeder in a warm brown shade that is contrasted with a light floor and overhead cabinet doors in Cashmere for Royal and Imperial. The Gemstone series has overhead cabinet doors in Grau.

Estate has Grau overhead cabinet doors as well, but with wood trim and a black stripe that nicely accentuates the caravan's dark floor and other interior details.

Every caravan has a sound-insulating fitted ceiling that prevents both inside and outside noise.

Lighting plays a significant role in setting the mood at home, and it's just as important for the ambiance in your caravan. In every KABE, you will find light fixtures with built-in spotlights, night lights with a switch by the bed, internal switch for exterior lights, lighting in the gas compartment and ski storage, plus lighting in wardrobes and under-bed storage.

We are updating the details for model year 2025! All KABE caravans feature new black handles for wardrobe doors, cabinets, kitchen cabinets and drawers. Chrome interior details (such as reading lights, faucets and shower) are also finished in black.

The kitchen includes a new design for the counter with a new Dometic stove and a new modern square sink with a black faucet. Imperial is upgraded with a practical Flexi-faucet. We are also switching to a large Thetford refrigerator in all models (except for Estate 470 GLE and Royal/Imperial 630 TDL FK).

In our 2025-models, you will also find an entirely new TV-solution. We've redesigned the entry in all our caravans with space for a larger TV. The TV-mount is installed on the wall in the entry and it has a flexible rotating function. The new design allows for a TV up to 32 inches in size. Our CTDL and CXL floor plans retain their smart TV-solution with a height adjustable TV-mount placed in the backrest of the seating area.

Design and upholstery

It is the details and the comfy design that creates the overall feeling of home in a KABE. In addition to providing comfortable seats and beds, we offer textiles and upholstery that meet the design, care and durability requirements of modern caravan families.

This year's collection includes four options in fabric, two in leather and one artificial leather. Estate has two fabric collections.

Leather upholstery is included with our Imperial models and available as an option for Royal. The same applies to environmentally conscious Las Vegas artificial leather collection with a genuine leather feel! The upholstery has a surface made of PU and the back side is made from recycled leather. The material is soft, durable and super easy to keep clean!

Our collections Phoenix, New Haven, Durham and Las Vegas have new modern curtains.

2025

COMFORT

Year-round, in all road conditions and directions

The comfortable KABE-life is characterized by a smooth journey and the most relaxing time possible on site with your caravan. We include every detail in the design and development of our models. Whether the goal is the journey itself, or the destination, we provide safety and a sense of home year-round, in all road conditions and directions.

Culinary delight

The kitchen, just like at home, is a vital part of caravan living and somewhat the heart of family life.

In our 2025-models, all KABE kitchens are tastefully updated. Highlights include a square sink, a new stove, large new Thetford refrigerator and stylish black details.

All KABE kitchens are well equipped with plenty of storage and thoughtful design. We know that fine cooking requires its own space. Smart solutions provide extra work surfaces when you need them most.

Gemstone, Royal and Imperial include recessed cabinet doors and drawers. The kitchen drawers are equipped with soft-close and central locks in all models. The entire caravan is upgraded with modern black handles and the kitchen drawers feature top-mount handles that complete the look.

There are many exclusive details, such as the new square sink with a surface-mounted black faucet, pull-out cutting board in carefully selected beech wood and a functional cutlery drawer. Naturally, you can sort your waste with separate bins, just like home.

In a KABE, you get a kitchen that invites you to culinary pleasure, regardless of how many gather around the table.

Royal and Imperial feature the Light Concrete countertop. The Gemstone-series has the countertop Perla. The laminate continues on part of the wall and provides an extended feeling behind the stove and sink while serving as a practical backsplash that is easy to wipe clean.

Our 2025 Royal-models include a new gas stove with four burners. In the slightly smaller models (Royal 540/560 GLE and 600 GLE/TDL) a brand new corner stove is installed. A hybrid stove with an induction surface and two gas burners is available as an option.

For the Gemstone-series, a gas stove with three burners is standard in Onyx and Ametist/Smaragd XL. The new corner stove is included in Safir, Ametist/Smaragd GLE and Brilljant XL.

A new built-in oven with a glass front is included in Royal- and Gemstone-models!

All Estate-models are equipped with a gas stove with three burners.

The microwave is placed under the refrigerator to maximize the space in the overhead kitchen cabinets and at the same time maintain the clean look of the kitchen. The microwave is standard in Imperial and available as an option for Estate, Gemstone and Royal.

Starting in 2025, a new large Thetford refrigerator is included in all KABE caravans (except for Estate 470 GLE and Royal/Imperial 630 TDL FK). A compressor refrigerator from Thetford is available as an option for all model series.

The Royal-series features Cashmere overhead cabinet doors throughout, also in the kitchen, while the kitchen cabinets in Gemstone match the rest of the interior with doors in Atlas Zeder.

KABE's Estate-kitchen has cabinet doors in the same colour Grau as the model's overhead cabinets in other areas. They complement the Elero kitchen countertop and blend in nicely with the interior design throughout the caravan. For a nice contrast, kitchen drawers feature a darker wood laminate, Nussbaum Ombre. The black kitchen faucet and the black handles are the finishing touches.

The Imperial-kitchen is not your ordinary caravan kitchen! Here, we elevate the concept of premium to create a kitchen for true connoisseurs. The kitchen cabinets are finished with elegant high-gloss doors in a soft crème colour, Sabbia High Gloss.

All our Imperial-models feature the unique new hybrid stove 'gas-under-glass' with an induction surface and two gas burners neatly hidden under the smooth cooktop. Aesthetically pleasing while simplifying cleaning!

A new built-in oven with a glass front is included.

Imperial is also upgraded with a new black Flexi-faucet, with flexible extension, for 2025.

Room for everyone

The living area is the place to relax and socialise. In order to enjoy each other's company, comfortable space is needed for everyone. You might also want to use the caravan as a place to work.

New design-details in black enhance the interior with a stylish contrast to other elements.

Our sofas are generously sized and equipped with comfortable and ergonomically shaped cushions. In addition to providing comfortable seats, the smart storage space under the seats make it easy to keep things organized. The corner sofa's adjustable headrests can be moved up and down and from side-to-side (included with Estate and Gemstone Comfort package). The extension for the table provides a practical extra surface (Gemstone, Royal and Imperial).

Choose the upholstery collection that fits your personal taste from our unique and carefully tested options. Curtain sets are available in two styles (not for Estate). See pages 12-13.

Gemstone, Royal and Imperial feature cushions with high-quality Premium Foam padding and all our cushions have anti-slip material on the underside to ensure that they stay firmly in place.

In Imperial, leather upholstery or artificial leather is included and the sofas are designed with a slide-out function for easy adjustment of both seat and backrest.

With our smart sofa-solution, the sofa easily transforms into a large extra place to sleep for occasional overnight guests. Perhaps grandchildren or a teenager's friend visiting.

Details such as rounded sofa corners and indirect lighting along the underside of the cabinets create an inviting living space. Speakers installed in the front corners further enhance your comfort and the cosiness factor.

DAB radio is included in Estate and Gemstone. In our Royal-caravans you will find a multimedia player with DAB, while Imperial is equipped with KABE's exclusive Premium Sound System with DAB.

To facilitate your connected life, a router for wireless network is included in all KABE-models. An external antenna for the router is available as an option. In the entry of Royal and Imperial, you'll find an accessible wireless charger for your mobile phone.

For 2025, a redesigned entry in all caravans accommodates a larger TV, up to 32 inches! (Not for CTDL or CXL floor plans.)

Gemstone, Royal, and Imperial feature a stylish and discreet bar cabinet in the entry, where bottles are stored horizontally.

Wake up rested and refreshed

Wake up rested and refreshed and ready for new journeys and adventures. We always include really comfortable beds and mattresses, a convenience that is often an additional charge from other brands. You deserve the best!

Choose the KABE-bedroom layout that works best for you and your family's needs. Whether you choose single or double beds, the beds are of the highest quality with spring mattresses, thick mattress pads and a base with flexible slats (not for bunk beds). To accommodate the whole family, we build bunk beds with up to three levels. Efficient compact living and a cosy place for the little ones. USB-outlets by the bunk beds simplify the children's game and movie time if the holiday weather is not exactly what everyone hoped for.

A practical storage area is located under the adjustable bed. Several models have an access door that allows you to reach the space under the bed from the outside also.

The bed is not just a place to sleep. It's a place to curl up with a book or magazine for a bit of relaxing time. To make it as comfortable as possible, we designed a headboard in soft padded faux suede with a 3D-printed look that adds an inviting and cosy feel to the bedroom environment. Stylish bedspreads are always included with your KABE.

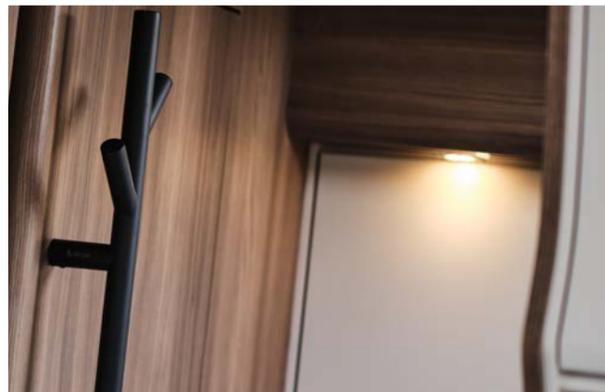

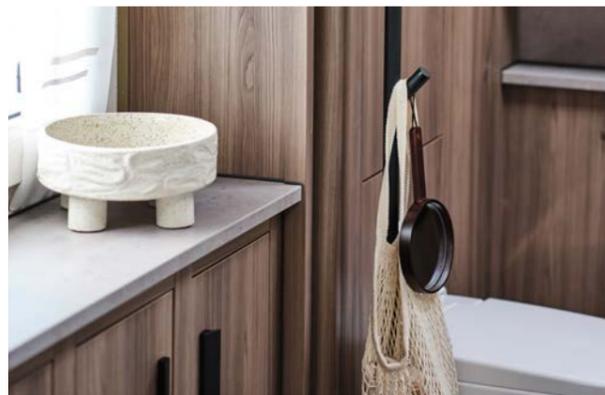

In addition, you will find details such as soft lighting above the bed and an adjustable headboard is standard in Gemstone and Royal. In Imperial, an electrical adjustable headboard is standard (not available for E9-bed).

Night light on or off? When you want to turn the night light on or off, the switch is located exactly where it should be – by the bed. With our XL-bed, the DuoSpot reading lamp with three switches is included. A smart switch with touch-panel is standard in Royal and Imperial.

Soundproof walls and ceilings ensure restful nights and refreshed mornings. Additionally, our bedrooms are equipped with spacious wardrobes and overhead cabinets to fit everything your family needs for the holiday.

The new black design accents naturally continue into the bedroom as well, providing a cohesive and modern impression throughout the caravan!

Bathroom comfort just like home

A private shower and toilet is a priority for many to make everyday life in your caravan as relaxed as possible. Do you prefer a floor plan with a large and spacious bathroom and walk-in shower? Or would you rather use the space for other things and place the bathroom as a natural divider between the caravan's various areas? We offer many flexible solutions for you to choose the floor plan and bathroom comfort that best suits you and your family. Everything to make you feel at home.

The thoughtful details and sleek design that characterize your entire KABE-caravan are naturally present in the bathroom. In Gemstone, Royal and Imperial, the colour scheme from the rest of the caravan's interior is reflected with cabinets in Atlas Zeder. The bathroom in the Estate has cabinets in Nussbaum Ombre dark wood laminate.

An exciting new component are the upgraded interior details such as handles, hooks, faucet and shower in black! They add an extra design-touch to your KABE-bathroom.

Bathroom countertop in the durable laminate Urban Style with a modern concrete look adds style to the decor in Estate and Gemstone. Royal and Imperial feature contemporary countertops with modern Light Concrete laminate.

In our TDL-models, the bathroom is located in the back of the caravan, spanning the entire width with a practical walk-in shower. The spacious TDL-bathroom is finished with a matching laminate on the wall behind the mirror and details in the shower as well as elegant silicone profile with LED lights – Neonflex (not for Estate). A shower is included in several other KABE-models.

In the Imperial-series, a swivel flush toilet with a ceramic bowl is standard. Heated towel rack is included in Royal and Imperial.

A lock for the bathroom door is always included.

You will find an external shower outlet with both cold and warm water in Royal and Imperial. It makes it easy to rinse off boots or a muddy dog after a hike in the woods.

On the home page, you can see all the controls for lighting and digital dimmer sliders. It also displays the temperature, both outside and inside, and the time.

Information and heating controls are displayed on a separate page. With the touch of a button it's easy to raise and lower the heat.

With KABE Smart D you don't have to manage multiple panels. You can control the refrigerator, AC and more – all conveniently located in one display.

Current status information such as freshwater level, wastewater level and battery voltage are clearly displayed. With KABE Smart Level, you can monitor the gas level, tyre pressure and the caravan's tilt when parked (standard for Imperial, option for Royal).

KABE smart technology

With KABE Smart D control panel – **winner of the European Innovation Award** – you can manage many of the caravan's functions. The panel is designed with user-friendliness in mind and features an easy-to-read touch-screen display. You can monitor freshwater level, wastewater level and battery voltage. You can control lighting, AC, boiler and temperature. The system also has several alarm functions that remind you when it's time for service or if a fuse has blown. Everything is conveniently displayed on the Smart D screen. Standard in Royal and Imperial.

Which language do you want to navigate your KABE Smart D-panel with? You can easily select your language of choice, just like on your smart-phone.

KABE Smart D Remote allows you to control the caravan's control panel remotely via an app from wherever you are. For example, you can start the AC on your way home from the beach or increase the heating and set up welcoming lights before the final run on the ski slopes! KABE Smart D Remote is integrated with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option).

In addition to controlling heating, lighting and monitoring the caravan's functions and alarms via your cellphone, you also have access to a wireless internet connection on your trip. KABE Smart D Remote* is available as an option for Royal and Imperial.

KABE Smart Level – **winner of the European Innovation Award (EIA) in the Vehicle Equipment category 2023** – monitors gas level**, tyre pressure and the caravan's tilt when parked. The panel shows the gas level, so you don't have to worry about running out unexpectedly during your trip. The tyre pressure sensor helps you maintain the correct air pressure in the tyres, ensuring a safer and more fuel-efficient drive. KABE Smart Level also includes a level indicator that shows the tilt of the caravan when parked, which affects both comfort and functionality in the living space. Standard in Imperial and optional for Royal.

The large AGM 130 Ah battery allows for higher current draws and has lower self-discharge rate. The battery sensor allows you to monitor your battery's performance and how long the charge will last at various levels of consumption via the Smart D panel (included with the Eco package).

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is needed as well.

** With the use of one gas bottle, not for composite bottles.

QUALITY

More than 65 years of know-how and experience

KABE caravans are designed to suit both the Scandinavian climate and the roads further south. All models are manufactured in our own factory in Tenhult, Småland, which today is one of Europe's most modern. A passionate team of developers, designers and assemblers bring over 65 years of expertise and experience to the table. Our goal is to always offer the highest quality in every price segment of the market.

How we build at KABE

You can recognize a KABE by its distinctive exterior design and colour scheme. Behind the elegant exterior you will find a series of unique constructions and systems designed to work together efficiently.

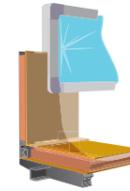

It's the whole that defines KABE's high quality and standards. This includes a custom chassis for safe driving, a robust and moisture-proof body and a meticulously engineered system for heating, insulation and ventilation.

Much of the quality is in the details, and in KABE you will find numerous smart and durable solutions that contribute to the final product's excellence. Many of our functions and solutions are unique to our brand.

We simply build caravans that we ourselves would want to live in: comfortable, functional and well equipped with the best year-round features on the market. To provide you with a relaxing holiday experience on wheels and always feel happy and safe in your KABE, wherever you go.

KABE-quality from start to finish

iWall construction

iWall construction delivers maximum stability and an absolutely waterproof body!

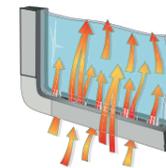

- The body is built with the Sandwich principle: outer sheet metal, 36 mm Ecoprim insulation, inner sheet metal and a wall covering that absorbs any condensation.
- Ecoprim is a waterproof material that is manufactured with closed cells, which means that it cannot absorb any moisture.
- Aluminium sheets on both sides of the Ecoprim insulation significantly reduce the impact from temperature differences.

Sealed roof joints

The transition from roof to walls is sealed in several stages.

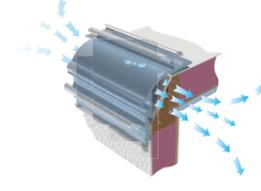

- First, the joint between roof and wall is carefully sealed with elastic butyl compound.
- In the next step, we overlap the roof sheet with the wall sheet to completely avoid leaks.
- KABE's unique iWall construction provides an unlimited number of attachment points – important for adding optional equipment.

Sealed windows

Double-glazed energy efficient windows ensure that your caravan does not release more heated air than necessary during the cold season and vice versa when it is hot.

- Energy efficient windows with polyurethane frames that create a seal against the double pane glass provides maximum insulation.
- The window frame is insulated with built-in ventilation, which prevents condensation on the inside of the window when the curtain is drawn at night.

Aluminium profile

The profile is attached both from the side and from above for maximum strength.

- Custom designed, extra wide profile in the joint between ceiling and wall.
- The profile has an air gap that ventilates the joint between wall and ceiling.
- The profile is mounted with double sealing strips and screwed together from two sides.
- Built-in awning rail is included on both sides of the caravan.

Butyl seals

Butyl tape retains its elasticity throughout the life of the caravan.

- Butyl tape is used throughout for all sheet metal joints, overlaps and screw bushings.
- Approx. 20 kg of sealing compound is used in each caravan.

KABE Safety Driving System

KABE's axles provide comfortable and stable driving, and are adapted to the caravan's maximum load.

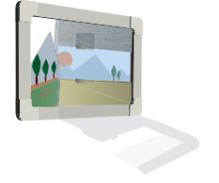

- Chassis with warm galvanised steel profiles.
- Electronically controlled anti-skid system provides extra safety on the road (not in Estate, optional in Gemstone).
- Axles that deliver comfortable and secure driving.
- Longer and stabilising tow bars.
- All models are equipped with a friction clutch.
- Our single axle caravans include premium tyres.

Plastic beams

KABE's unique construction provides a safe caravan with a long lifespan and documented good resale value.

- KABE uses plastic beams with integrated air ducts in all moisture-exposed parts of the body.
- Patent is pending for the KABE-designed plastic beams.
- Our plastic beams have superior insulation properties.
- The plastic beams also provide better connections between the different parts of the body.

Unique windows with smart details

KABE's windows include all the features required for comfortable caravan living.

- The smooth and medium tinted exterior of the window panes protect against heat.
- Integrated screens and blackout curtains are included.
- All windows (except the kitchen window and the windows in our Estate-models) are fluidly opened. A front window that can be opened is standard (not for Estate).

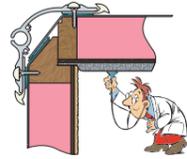

Connecting beams in floor

The body can withstand very high loads, for example large amounts of snow on the roof.

- Extra beams between lengthwise chassis joists provide a more stable floor and an extra torsionally rigid chassis.
- Connecting beams for best possible stability.
- The chassis has outriggers from the lengthwise side beams, to relieve the weight where the floors and walls are joined.

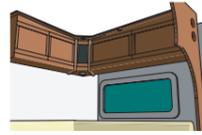

The details make all the difference

Soft, light reflecting and sound insulating ceiling

The soft inner ceiling creates a cosy indoor environment and reduces the sound from rain and wind.

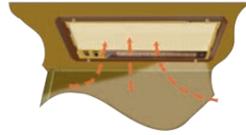

- KABE is the only manufacturer to feature an exclusive 'soft ceiling' design, with better acoustics inside the caravan.
- Our 'soft ceiling' absorbs sound and improves the ceiling's insulation properties.

KABE-quality in every interior and all carpentry

Furniture construction and interiors are always produced in KABE's own facilities.

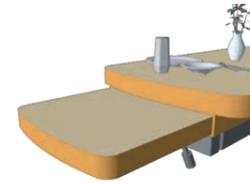

- Scandinavian design throughout the interior.
- Overhead cabinet doors open with a light touch.
- Kitchen drawers are equipped with soft-close and central locks.
- Robust and durable interior optimised for lighter weight.

A well equipped kitchen

In the KABE kitchen you will find equipment and details just like your kitchen at home.

- Built-in, two-speed kitchen fan with lighting.
- Removable grease filter for easy cleaning.
- Stove with electric ignition.
- The market's best refrigerator ventilation system with roof vents.

...more details in the kitchen

With many smart solutions the compact caravan kitchen appears bigger than you think!

- Kitchen table with an integrated extension provides additional space (not for Estate or pedestal tables).
- Practical pull-out wire shelf in the kitchen in several models.
- Kitchen counter with plenty of space.
- Large fridge with freezer compartment, 167 litres (not for Estate 470 GLE and Royal/Imperial 630 TDL FK).

Best seating comfort in the market, premium upholstery and textiles

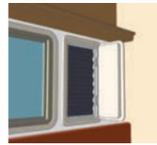

With friends around the table or in front of the TV, you are always comfortably seated.

- Ergonomically designed sofas with durable, recycled Premium Foam cushions.
- Highest quality, wear-resistant upholstery.
- Several collections to choose from and the possibility to combine curtain sets with upholstery options (modern panel curtains or classic curtains with a valance).

Adjustable sofas and more efficient cleaning.

- Headrest and accent pillows standard in Royal and Imperial.
- Slide-out function with an adjustable seat and back cushion is standard in Imperial.
- Adjustable headrest, height and side to side, in the corner sofa (included with Estate and Gemstone Comfort package).
- Anti-slip fabric on the underside of all cushions keep them firmly in place.
- Leather upholstery or artificial leather is standard in Imperial.

A practical, safe and secure bedroom

The bedroom is designed as a comfortable place to sleep and relax.

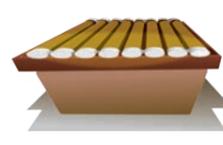

- An air vent located in the bedroom area quickly provides fresh air in the caravan.
- A movable Velcro magazine pocket is provided bed side.
- Under-bed storage with lighting.
- Smoke detector and ground fault circuit breaker.

Very comfortable beds

A good night's sleep and extra comfortable for reading in bed.

- Spring mattresses and thick mattress pads (not in bunk beds) guarantee a good night's sleep.
- Our adjustable headboards provide extra comfortable reading in bed (not for Estate).
- Electric headboard (standard Imperial, included with Gemstone Comfort package and available as an option for Royal).
- Several models can be equipped with a combined loft bed/overhead cabinet.

...more comfort details

Adjustable beds with soft-close for extra easy and efficient cleaning.

- Fitted bed slats support your body when lying down.
- Adjustable beds with soft-close.
- Under-bed storage space with our custom designed convectors at the access door provides better heat in the bedroom area.
- Headboard with cosy lighting.

A bathroom with a shower

A private shower gives you an increased feeling of freedom.

- Shower insert, water-proof wall covering, practical extendible hand shower and shower curtains are available in our various models.
- Several layouts have a walk-in shower.
- Lock for the bathroom door.
- Outside shower outlet with both warm and cold water (standard in Royal and Imperial).

Dryer cabinet

Dryer option after an active day outdoors is a practical feature in many of our models.

- Dryer cabinet with a custom designed drip pan for drying of shoes.
- The dryer cabinet has a special convector and an adjustable roof valve for maximum heat circulation.
- Heated shoe compartment in the entry.
- Wardrobe with room for coats and outerwear.

Lots of lighting throughout

Night light provides a guiding light in the caravan at night.

- Light fixtures with built-in spotlights.
- Our Royal and Imperial models feature integrated lighting in the window frames in the seating area in front.
- Night light with the switch located by the bed.
- Interior light switch for exterior lights, the lighting in the gas compartment and ski storage.
- Lighting in wardrobes and under-bed storage.
- Modern switch with touch-function.

KABE Smart D

With KABE Smart D control unit, you can manage many of the caravan's functions.

- Easy-to-operate electrical panel with touch-screen display.
- The electrical system detects the battery strength and automatically charges when necessary.
- The system keeps track of water level, temperature and battery voltage (standard Royal and Imperial).
- KABE Smart D Remote is available as an option for Royal and Imperial.

KABE Smart Level

Complete control with Smart Level! The KABE Smart D panel includes KABE Smart Level, with three practical functions.

- The panel shows the current gas level (for the use of one gas bottle, not for composite bottles). No need to worry about the gas running out unexpectedly.
- The tyre pressure sensor helps you maintain the right air pressure in the tyres.
- A level indicator shows the tilt of the caravan when it's parked.

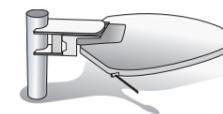

Your comfortable KABE life made even a bit simpler with full control of the situation.

Electrical box

A modern caravan has a large consumption of power, therefore the charger must have a high capacity so that the battery is always in the best condition.

- Electrical box with 230 V input and 16 A automatic fuse with earth fault switch, control lights for electricity, 230 V / 12 V outlet, TV-outlet for cable TV and outside TV (not for Estate).
- Controls that indicate the power supply.
- Electrical box with lighting (standard in Royal and Imperial).
- Battery charger for 25 / 30 A.

Ready for TV reception

Your KABE is equipped for the best reception.

- Electronic TV antenna for both analogue and digital reception.
- Exterior connection for the TV, cable TV and 12 / 230 V.
- Equipped with a TV-antenna outlet in three places: in the living area, bedroom area and the electrical box.

Sound and visual

A KABE-life as connected as you want!

- Multimedia player with DAB included in Royal. KABE premium sound system with DAB is standard in Imperial. DAB radio is standard in Estate and Gemstone.
- Built-in speakers in the front of the caravan.
- A wireless router is standard in all models.
- External antenna for the router is available as an option.
- Adjustable TV-mount in several models.
- Wireless charger for mobile phones located in the entry (standard in Royal and Imperial).

Gas control

Convenient and safe gas handling.

- The gas compartment is integrated in the front of the caravan.
- Room for two gas tanks as well as luggage.
- The gas compartment has a frame at the base to keep everything in place when you open the access door.
- The gas compartment includes lighting, an exterior gas outlet for a grill and a leak indicator for manual control of the gas system.
- Removable fitted protective mat.

Unique comfort every day of the year

Manufacturing caravans for Scandinavia and the rest of Europe is a significant challenge. The climate is extreme and can vary from warm and dry summer to damp and windy autumn and cold winter with heavy snow. This places sky-high demands on heating, insulation, and ventilation to ensure that your caravan is both safe on the road and comfortable to live in year-round.

All our caravans are built for maximum ventilation. The placement and thoughtful design of the furniture ensure optimal air circulation. Our underfloor heating system provides even warmth across the entire floor and KABE's patented wall construction provides the best possible indoor climate.

Our goal is to make your winter holiday as comfortable as your summer vacation. The technical solutions in our construction and our unique heating and ventilation solution, Smart Climate System, make your KABE one of the best year-round caravans on the market. When you and your family set off, you can trust that our systems and equipment are carefully developed to withstand various types of challenges from the outside elements.

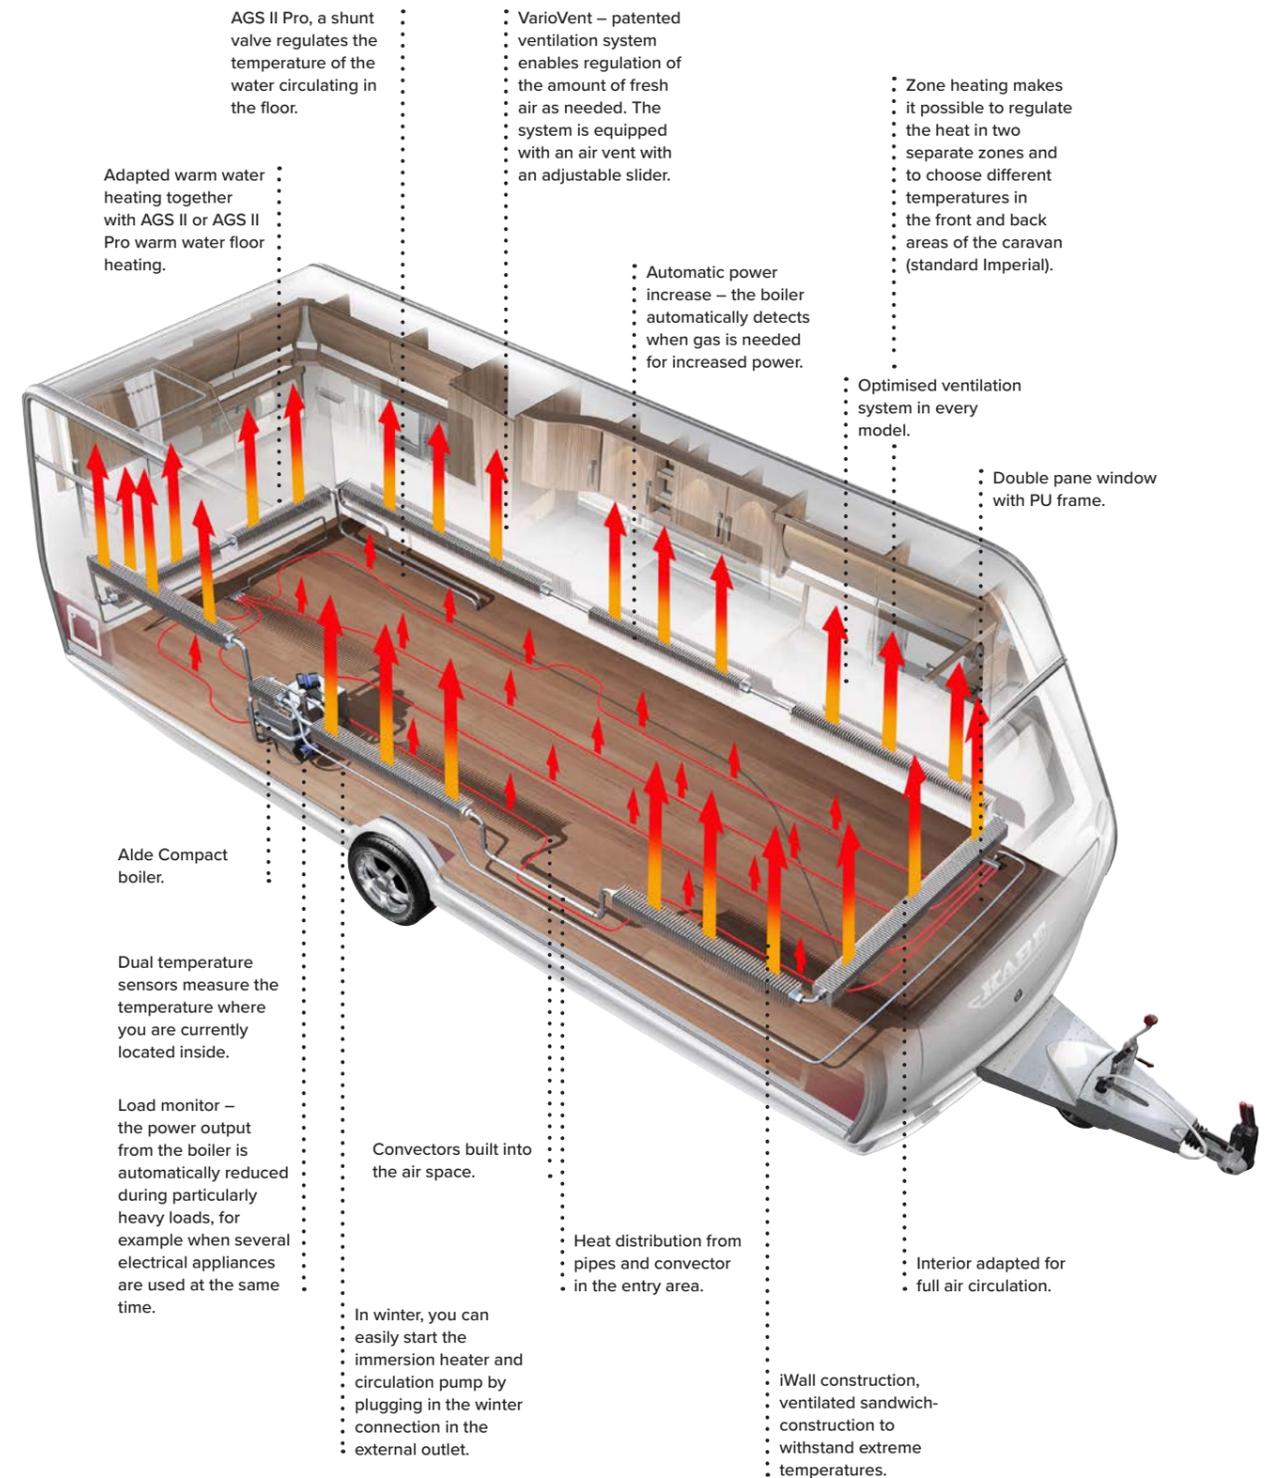

In our Imperial-models, the Alde zone heating system is included, which lets you control the heating in two separate zones – the back and the front areas of the caravan. The bathroom is always comfortably heated via a return loop.

The efficient Dometic FreshJet FJX4 2200 is a ceiling-mounted climate control system with quiet and energy-efficient operation and an aerodynamically designed exterior unit. The system can be managed via remote control, the Dometic Climate app, the touch-panel on the interior unit or via the KABE Smart D panel. Night mode with reduced fan speed and Clean Air technology that reduces bacteria and unpleasant odours are included. Standard in Imperial, optional for other models.

With more than 65 years of experience and ongoing product development, we can proudly say that every KABE-caravan answers these tough requirements – and then some.

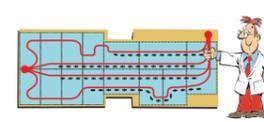

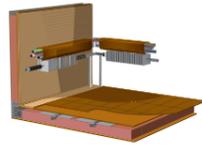

Find out more on the next page!

KABE Caravan heating systems

Warm in the winter and cool in the summer

SMART -CLIMATE+ SYSTEM

Intelligent heating system

We prioritise your comfort! The following is always included in all KABE caravans:

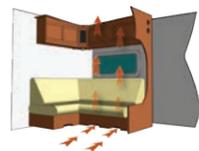

- AGS II or AGS II Pro warm water floor heating.
- Maximised convector length and densely packed convectors.
- Optimised ventilation system.
- Interior adapted for full air circulation.
- iWall construction.
- ALDE Compact boiler.

Balanced heat distribution

KABE caravans are designed for the best possible heat distribution.

- KABE design allows the warm air to pass freely from the floor, under beds and sofas, and up to the ceiling through our ventilated overhead cabinets.
- KABE has the market's best and most even heat distribution in the living area and in other spaces (wardrobes, bathrooms and overhead cabinets).

Ventilated sofas and beds

Sofas and beds are carefully positioned to create an air space which enables full air circulation under all beds and bases.

- Sofa backrest and cable trays are angled to accelerate the airflow past the windows.
- The sofa backrest and the space by the bed are heated when warm air is distributed along the wall.

Central heating

The powerful heating system can withstand large temperature differences between the outside and inside.

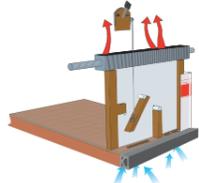

- Heating boiler ALDE Compact 3030 with a touch-screen display and an electric cartridge of 3 kW. Propane gas operation with 5,5 kW (5500 W) for a total effect of 8,5 kW.
- The heating system has a 12 V circulation pump, integrated water heater and separate expansion tank.
- A cover is placed around the gas unit for the most efficient hot water effect.
- Roof vent in several models for maximum operational reliability.

Inner sheet metal in walls

The sheet behind the wall covering is heated by the indoor temperature and helps prevent condensation.

- KABE sandwich construction consists of an outer sheet, ecoprime insulation, an inner sheet and inside wall covering.
- The heat from the radiators advances up along the walls.
- The inner sheet in the wall distributes the heat evenly across the entire wall, whereas plywood walls, for example, do not conduct any heat at all.

Optimised ventilation system – patented KABE VarioVent

With KABE VarioVent, you can easily regulate the air intake in the caravan.

- Our patented ventilation system enables regulation of the amount of fresh air as needed.
- The system is equipped with an air vent with an adjustable slider.

Integrated heating system

KABE's warm water system heats from the outside and in, so that walls, furniture and interior are heated as well.

- The floor heating system is connected to the convector system, which means that the air circulates throughout the entire caravan when the heat is turned on.
- The system is powered by both gas and electric.
- KABE is constructed with extra wide convectors under all windows to maintain maximum heat in the air so that any condensation is vented away from the windows.

Ventilation in walls and floors

KABE's unique construction easily prevents moisture in the walls (especially winter time) and eliminates the risk of moisture damage.

- KABE is the only manufacturer to include a ventilating inside wall covering that allows the warm air circulating up the walls to pass through.
- Condensation on the floor is caught by the ventilating floor covering along the outer edge and dries out when you turn on the heat.
- KABE's inside wall covering has a sound insulating effect.

Additional heating features

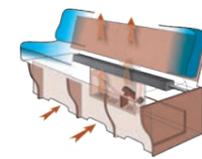

KABE's insulation in walls and windows keep you warm in winter and cool in summer.

- To avoid cold drafts, we take extra care with the insulation around fresh air intakes and heating convectors.
- The insulation contributes to optimal heat exchange.
- With double temperature sensors, one in the sleeping area and one in the front seating area, the heat can be adapted to where you are in the caravan.

Superior floor heating comfort

Comfortable warm floors throughout the entire caravan!

- Our custom designed patent-pending automatic warm water floor heating system – AGS II – with four loops provides more even heat.
- The heat circulates in aluminium ducts that reach all the way to the front door, kitchen cabinets and bathroom.
- Heating plates distribute the heat evenly over the entire floor.

Optimal air flow

Ventilation and air flow are key to maximum living comfort in your caravan both in winter and summer.

- Our interior is adapted to provide optimal air flow throughout the caravan, even behind cabinets and sofas.
- The distance between sofas and beds and the angle of the sofa backrest are carefully calculated.

Automatic power increase

KABE's winter connection is practical for parked caravans. Your caravan is heated on arrival and ready for the weekend's skiing adventure.

- The boiler automatically detects when gas is needed for increased power.
- In winter, simply start the electric cartridge and the circulation pump by switching on the winter connection. When you connect to electricity (230 V) via the exterior electrical outlet, the winter connection is activated at the preselected temperature.

AGS II Pro

Adjusts the heat according to your personal needs.

- With AGS II Pro (standard in Gemstone, Royal and Imperial), the floor heating can be operated separately.
- A shunt valve regulates the temperature of the water circulating in the floor.
- To reduce energy consumption, the system is interval controlled. The water circulates in the system during certain pre-set time periods, which reduces the energy consumption in the boiler and protects the battery at the same time.

Angled cable ducts

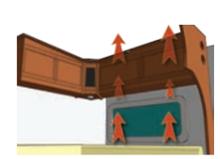

Efficient and energy-smart details.

- Maximum heat is absorbed from the convector and accelerates the airflow past the windows.
- Our unique cable ducts are angled to allow the air to flow freely past the windows.
- Electrical wiring, water and waste water pipes are hidden in the cable ducts.
- In winter, the construction quickly thaws residual water in the pipes.

Pull-out ski storage and access

Easy to organize all holiday luggage, including ski equipment.

- Pull-out, heated ski storage with lighting.
- An indicator on the light switch in the caravan shows whether the lighting is on or off.
- Storage access under the bed with built-in air flow ducts.
- The storage access door makes it easy to reach the space under the bed from the outside (standard in Royal and Imperial).

Free airflow

KABE's construction allows the air to flow freely from the floor, under beds and sofas, up to the ceiling, through our ventilated overhead cabinets.

- The overhead cabinets have built-in air ducts to let the warm air pass freely by the joint between the wall and ceiling and on towards the middle of the caravan.
- A partition at the rear edge of the cabinets keep the ducts open even when the cabinets are full.

Load monitor

Helps you conserve electricity.

- The boiler's power consumption of electricity is automatically reduced during particularly heavy loads, for example when several electrical appliances are used at the same time.

SAFETY

All the time in every situation

We want you to feel secure in your investment, so that you can fully enjoy your days off. That's why our caravans are built to the highest safety standard and meticulously tested to optimise the use and experience in every location and in all situations.

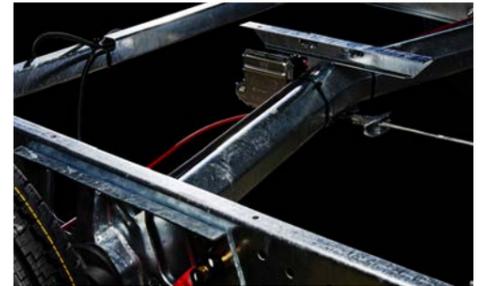

With your safety in mind

We have great respect for the challenges you face on the road. Slippery surfaces, moisture and rapid temperature changes are just a few examples. That's why we invest heavily in your safety. When you purchase a KABE, you get a caravan built in one of Europe's most modern caravan factories, designed to make your driving experience as safe and comfortable as possible.

All KABE caravans are equipped with our proprietary KABE Safety Driving System. Our system makes it safer than ever to tow the caravan on the roads. KABE Safety Driving System includes a chassis with longer tow bars and a roll-stabilising axle. Royal- and Imperial-models also include an electronically controlled anti-skid system. If the caravan starts to sway, the system detects this in a few thousandths of a second and stabilises the car and caravan with immediate and smooth braking. Friction clutch has long been standard in all KABE caravans, as well as premium tyres that help the caravan handle challenges on the road even better.

KABE Safety Driving System. Chassis with warm galvanised steel profile. Electronically controlled anti-skid system (not in Estate, available as an option for Gemstone) provides extra road safety. Axles that provide a comfortable and smooth drive. Longer, stabilising tow bars.

Extra rigid chassis. Extra beams between lengthwise chassis joists result in a more stable floor and an extra torsionally rigid chassis. Connecting beams provide the best stability possible. The chassis has outriggers from the lengthwise side beam, to relieve the weight pressure where the floor and walls are joined. The body can withstand very high loads, for example, large amounts of snow on the roof.

Tyres and clutch. Our single axle caravans feature premium tyres. 14" steel rims are standard in Estate and 15" aluminium rims are available as an option with the Design package. 15" aluminium rims are standard in Gemstone and Royal as well as 17" Diamond Cut aluminium rims in Imperial (available as an option for Royal). All models include friction clutch.

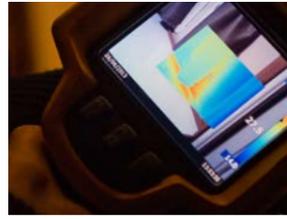

CLIMATE CHAMBER

In the climate chamber, the caravans are carefully tested.

-35 TO +55 DEGREES

Our caravans are tested in temperatures from -35 up to +55 degrees.

QUALITY

With the help of thermal cameras, we ensure that the construction delivers the quality we strive for.

COMPLETELY WATER PROOF

Advanced technology is used to check that the caravans are absolutely waterproof.

OPTIMISED WEIGHT DISTRIBUTION

Scales are used to balance and optimise the weight distribution between axles.

TOWING CAPACITY

Measuring equipment is used to check towing capacity.

DURABILITY

Pressure is used to test the strength of the caravans.

AIRFLOW

Airflows are carefully checked with smoke.

VENTILATION

Correct ventilation is vital and carefully tested.

GAS SYSTEM

The gas system is pressure tested.

ELECTRICAL SYSTEM

Electrical systems and other important functions are carefully checked before our caravans can leave the factory.

DURABILITY TEST

Durability tests are performed and simulated with equipment corresponding to 10,000 km of normal driving.

RAIN CHAMBER

In the rain chamber, the caravans are challenged with a high pressure sprayer.

BODY ENDURANCE TEST

Endurance tests are performed on every part of the body.

MANUFACTURING

We use state-of-the-art technology to manufacture every caravan.

Built for the toughest tests

Nothing in a KABE is left to chance. Throughout you will always find thoughtful design combined with the highest quality construction and materials. To achieve this, we conduct extensive tests for even the smallest details and functions. For example, the caravan is tested in our climate chamber to withstand temperature differences of as much as 90 degrees. With our advanced technology, we ensure that the caravan is completely sealed. We also check endurance, durability, airflow, electrical systems and much more. It is a matter of KABE-quality and safety that stands up to the tough tests.

10 important reasons to choose KABE

Year-round comfort

KABE caravans are designed for many different climates, to function as well during cold winter as in hot summers. We take no shortcuts when it comes to insulation, ventilation and heating. For maximum stability and complete moisture control, the body is built with KABE's own iWall system. All models are equipped with the Alde 3030 boiler and warm water heating is standard. Many of the important year-round features are built into the design and may not be visible when you step into the caravan for the first time. But you will definitely notice the difference when get to know your KABE.

Quality

A caravan from KABE maintains the highest quality down to the smallest detail, and our models are developed from scratch in KABE's own manufacturing facility in Tenhult, Småland. KABE continuously works on product development and each new model year is characterised by several interesting innovations. We design and test new solutions in our own development centre and every single caravan is built in our own factory, which is one of Europe's most modern. We have skilled employees, our own electricians, a carpentry shop and a modern machine department. And our subcontractors are among Europe's leaders in their various fields.

Resale value

No matter which model you choose, you can be sure your KABE represents the best quality in the market for every price segment. Much of what is standard in a KABE, you have to pay extra for from other manufacturers. It is a matter of quality and function that lasts. You can feel confident that the value of your KABE will hold up well in the future.

Technology

Your new KABE always includes cutting edge technology and it is one of the most well equipped caravans in the market. At KABE, we think ahead and put lots of time and effort into preparing for future challenges with smart solutions and technology development. In recent years, we have received several prestigious awards for our innovations, including ventilation and heat recovery. We do everything possible for the most comfortable experience on the road. So, before you start comparing prices – find out what is actually included in your KABE.

Design

Our modern and spacious interior with light colours and materials, is truly Scandinavian design at it's best. You will find thoughtful details such as recessed cabinet doors, rounded corners and ergonomically designed seat cushions. Materials are carefully selected with high quality and the result is that special KABE-feeling, where superior design and function always go hand in hand. The exterior is characterized by timeless, elegant lines and graphics that give each KABE its distinctive character.

Functionality

With more than 65 years of experience, KABE develops and builds caravans for active, year-round use. Your KABE includes many smart solutions for a KABE-lifestyle that is as convenient and relaxing as you like. Some examples are the practical ski storage with lighting, central locks for kitchen drawers and USB-outlets that are placed exactly where you need them.

Climate and environment

At KABE, environmental issues are top priority and we are committed all the way – from material selection and production technology to energy values and emission levels. We want to lead the development towards an even more climate- and environmentally adapted caravan industry. Naturally, we stand behind UN's global goals for sustainable development, good working conditions, increased diversity and equality, and to maintain a high standard in business ethics.

Safety

When you buy a KABE you invest in safety. We want you to feel secure in your investment and fully enjoy the days in your caravan. Our dealers include a 7-year warranty on water infiltration with all new models. Your safety on the road is extremely important to us. Our caravans are equipped with several active safety systems. And in case of an accident, your KABE has well developed passive safety systems that protect you in a collision.

Authorised dealers

KABE has a wide network of authorised dealers and service stations, not only throughout Scandinavia, but in several European countries as well. They provide expert advice and help you with financing and insurance for your KABE. And once you are on the road, we have more than 100 authorised service stations in northern Europe. You will always find professional help, should you need it. Many have worked with us for decades. You are in safe hands!

Lots of flexibility

There is a KABE for everyone. It's just a matter of figuring out which size, model, equipment and price range is right for you and your family. When you find your favourite model, you can select the optimal floor plan with KABE's Flexline System. There are many options and great flexibility. With our online product configuration system, building your KABE is easy. Choose "Build your KABE" on our home page www.kabe.se/en, or visit one of our dealers.

2025 MODEL PROGRAM

A KABE for everyone – find your favourite!

To fit the different needs of our KABE-owners, we have developed four model series, each with its own unique features. There is always a perfect KABE. Whether you choose a slightly smaller caravan or a larger model, you can be sure it includes year-round comfort, excellent quality, safety and lots of smart solutions.

KABE series and models:

ESTATE

Entry level model with KABE-quality all the way.

GEMSTONE

Built with extensive standard equipment for flexibility and comfort.

ROYAL / ROYAL HACIENDA

A complete leisure home with full KABE standard and high quality equipment.

IMPERIAL

KABE's premium series with extra large and luxurious models that offer a superior and comfortable living experience.

KABE FLEXLINE

Your personal floor plan

With KABE Flexline, you can choose the model and floor plan that suits your personal needs best. Create your dream-KABE in peace and quiet, at home. Every available option and possibility is clearly displayed in KABE's flexible configuration tool at www.kabe.se/en. And when you are done, a summary of your KABE caravan will be presented, including price and contact information for the nearest dealer.

Choose floor plan in 4 steps:

1. SELECT MODEL AND LENGTH

Our caravans are available in 4 model series.

Model	Interior length
Estate	473-720 cm
Gemstone	473-630 cm
Royal / Hacienda	522-940 cm
Imperial	550-940 cm

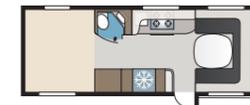

2. SELECT WIDTH

Our caravans are manufactured in two widths.

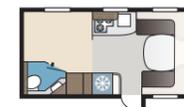

Model	Interior width
Standard	215 cm
King size	235 cm

3. CHOOSE BETWEEN 3 FLOOR PLANS

GLE: Bathroom and shower are placed along the side in the middle of the caravan.

XL: Bathroom and shower (walk-in shower in DXL) are placed in the rear corner.

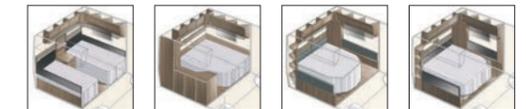

TDL: Bathroom with a separate walk-in shower spans the entire width of the rear of the caravan.

- ▷ **Bathroom cabinet doors:** Nussbaum Ombre
- ▷ **Wardrobe doors (bedroom):** Grau with wood trim
- ▷ **Fabric collections:** Fontana (beige) and Phoenix (black)

KABE Estate 2025

Many families have found their favourite caravan in our modern Estate series, which offers a range of different family-friendly solutions in various lengths. A total of 17 floor plans are available! Every family can find a size and floor plan that is right for their specific needs. In addition, Estate is available in a slightly smaller version, for those who want to travel light while still enjoying KABE's unique advantages.

KABE Estate has a bright and modern design throughout with large windows in the kitchen and living space. Overhead cabinets and doors in the light shade Grau with wood trim are contrasted with the darker wood laminate Nussbaum Ombre. The kitchen countertop has straight corners and you will find exciting details such as handles, switches and faucets in black.

As in all KABE caravans, the Estate-kitchen is well equipped with lots of storage options. In 2025, several kitchen details are updated (see News to the left). The Elero countertop has a stylish stone imitation and with a cover for the sink a larger continuous workspace is possible. Backsplash, tables and tops are finished in the laminate Perla.

The lighting in Estate is designed to create an inviting atmosphere, with indirect mood lighting along the ceiling and under the cabinets. The ceiling light is finished in Grau with contrasting wood trim.

The bed features an imitation suede upholstered headboard and includes a very comfortable mattress for a good night's sleep, as well as relaxing reading or listening moments. Cosy and stylish at the same time.

The consistent design naturally continues into the bathroom. The Urban Style countertop has a modern faux stone look and details such as faucet and towel hooks are stylish black, just like in the kitchen. Shower rod and shower curtain are included.

In Estate, you can choose from two fabric collections – Fontana in beige and Phoenix in black.

All Estate-models are equipped with a practical electrical system with a touch-panel. The new design for the entry area accommodates a TV up to 32 inches in size!

On the outside, Estate has a stylish smooth exterior and decal graphics with a 3D-look. For model year 2025, KABE Estate shows off a new sporty exterior design. Last year's graphics have been replaced with sweeping lines that signal speed and forward motion. The window frames are black on the outside, as is the air vent. KABE Estate is built on a Knott chassis with self-adjusting brakes.

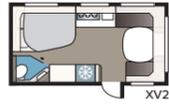

In 2025, a 2300 kg chassis is available as an option for 600- and 660-models.

Estate 470 XL

- ▶ Outside gas connection for a grill in the gas compartment

See options for Gemstone on pages 66-67.

News! As of 2025, a window for the front door is included!

- ▶ Updated entry area with space for a larger TV in all floor plans. The adjustable TV-mount is placed on the wall in the entry. The new design can fit a TV up to 32 inches in size.
- ▶ Updated kitchen counter.
- ▶ Modern square sink with a new black faucet.
- ▶ New corner stove in Briljant 470 XL, Smaragd 540 GLE, Ametist 560 GLE, Safir 600 GLE and Safir 600 TDL.
- ▶ Smaragd 520 XL, Ametist 560 XL, Onyx 630 GLE and Onyx 630 TDL feature a new straight gas stove with three burners.
- ▶ Large new Thetford refrigerator with Atlas Zeder front.
- ▶ Kitchen drawers with new top-mount black handles.
- ▶ Stylish new black handles for wardrobe doors, storage and cabinets.
- ▶ All chrome interior details, such as reading lights, faucets and shower now feature a black finish.

- ▷ Wood laminate: Atlas Zeder
- ▷ Floor: Light
- ▷ Overhead cabinet doors front/back: Grau
- ▷ Kitchen cabinet doors: Atlas Zeder
- ▷ Kitchen countertop and backsplash: Perla laminate
- ▷ Table and countertop: Perla laminate
- ▷ Entry area countertop: Perla laminate
- ▷ Bathroom countertop: Urban Style laminate
- ▷ Bathroom cabinet doors: Atlas Zeder
- ▷ Wardrobe doors (bedroom): Atlas Zeder
- ▷ Fabric collections: Tulsa (beige), Phoenix (black), New Haven (darkbrown) and Durham (green)

KABE Gemstone 2025

In KABE Gemstone, you will find a number of new interior details. Our redesigned entry with space for a larger TV, a window for the front door, an updated kitchen, and modern black details such as handles, hooks, reading lights and more.

The Atlas Zeder wood laminate with its attractive warm brown tone pairs nicely with the light floor and the overhead cabinets in Grau. The kitchen cabinets have doors in Atlas Zeder. The kitchen countertop and all tables and tops feature the modern laminate Perla. Wood laminate light fixtures and a stylish ceiling light in faux suede are also included.

The kitchen is stylishly equipped with a new modern square sink and a new surface-mount faucet in black, a separate cutlery drawer and cutting board in carefully selected beech wood. The countertop laminate Perla continues to the backsplash and is met by backlit Plexiglass. The split cover for the three-burner corner stove provides a smart, extra counter space.

For a more cohesive feeling, the back wall in the kitchen is finished with Atlas Zeder laminate as well.

Microwave installed under the fridge is an option.

Our ergonomic cushions with Premium Foam inside provide superior comfort, making the living room the obvious place for both relaxation and socialising. An adjustable headrest, adds extra comfort and is available as an option with the Comfort package. All our cushions have anti-slip material on the underside to keep them in place.

For KABE Gemstone, we offer four fabric collections.

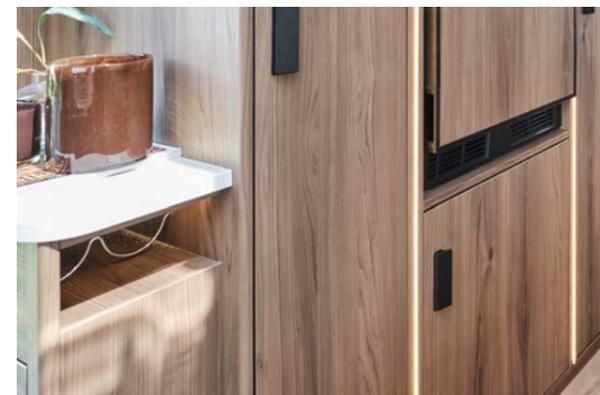

To make life in the caravan as convenient as possible, our models include more USB-outlets than ever, for instance by the bunk beds. Electrical system with a modern touch-panel is included.

In the entry, you will find a bar cabinet with horizontal bottle storage and a full-height slim wardrobe.

Our Gemstone-bathrooms feature the countertop Urban Style. If you choose a TDL-solution, a matching laminate with a concrete look on the wall in the shower and on the wall behind the mirror is a nice touch.

With AGS II Pro, the floor heating can be turned on separately. A shunt valve regulates the temperature of the water circulating under the floor. To reduce the energy consumption in the boiler and battery, the system is operated in intervals.

Other practical details are a lock for the watertank cover and a front window that can be opened is standard. On the outside, 15" rims in custom design enhance our Gemstone caravans.

Briljant 470 XL

The smallest of KABE's Gemstone models. A compact and light caravan, favoured by those who travel lots of miles.

Duocontrol. Duocontrol has a built-in automatic gas switch, reduction valve and collision sensor which is triggered on impact with a G-force of 3.5 G. The supply of gas is shut off immediately to avoid a gas leak. Duo Control is approved in all of Europe and enables the gas to be on while driving.

Direct drain – wastewater bypass tank

City water

KABE Royal

Our Royal-series is loaded with luxury equipment and features that are at the forefront of technology. Everything from Gemstone is included, and much more. For example, KABE Smart D electrical system is standard in all Royal models. In our Royal Hacienda models, we combine a long list of smart solutions with lots of space. Easy to move and a comfortable accommodation for those who are looking for something special.

For our 2025-models, we offer four fabric upholstery choices. Two leather collections and one artificial leather are available as an option. Each collection is made with quality materials and provides you with a maximum number of combination possibilities. Choose the upholstery, curtains and bedspreads that suit your personality, and you can be sure that you are purchasing a caravan which you will enjoy for many years.

All Royal models are listed on page 72.

Standard equipment

When you choose KABE Royal or Royal Hacienda, the following is included in addition to the standard equipment for Estate (p. 51) and Gemstone (p. 59):

- ▶ Storage access door
- ▶ Decals in the front air intakes
- ▶ ATC (Anti-Skid System) electronic stabilisation system
- ▶ Heki II skylight
- ▶ Exterior lighting along the entire entry side (Royal only)
- ▶ New 4-burner gas stove and oven with a glass front (new corner stove for Royal 540/560/600 GLE and 600 TDL)
- ▶ Adjustable sofa headrest
- ▶ Exterior shower connection
- ▶ Heated towel rack
- ▶ Electrical box with exterior 230 V / 12 V outlet and lighting with a switch
- ▶ Speakers in the front and back
- ▶ Integrated lighting in the window frames
- ▶ Multimedia player with DAB
- ▶ Smart D electrical system
- ▶ Wireless charger
- ▶ Central vacuum cleaner

See options for Royal on pages 96-99.

KABE Royal 2025

When you step into the caravan, the wood laminate Atlas Zeder provides a warm and inviting feeling. The rest of the interior is designed to complement the modern decor. The light floor, overhead cabinets in Cashmere, countertops and backsplash in Light Concrete laminate are contrasted by carefully selected black accents, creating a cohesive impression.

Many of us enjoy watching our favourite TV-shows even while traveling. Therefore, the TV-solution is something that KABE has prioritised in this year's models. All caravans feature an entry with a new construction. The adjustable TV-mount is placed on the wall in the entry and has a flexible rotating function. The new design accommodates a TV up to 32 inches in size. Our CTDL and CXL layouts retain their smart TV-solution with a height adjustable TV-mount placed in the backrest of the seating area.

KABE's design department has put a lot of care into the details of our updated kitchens, focusing on clean lines and seamless transitions. In addition to all the features in our well equipped Gemstone-kitchens, a new Dometic stove with four gas burners and a new oven with a stylish glass front are included. Royal's slightly smaller kitchens feature a brand new corner stove.

For model year 2025, we introduce a new large Thetford refrigerator in all models (except for Royal 630 TDL FK). A compressor fridge from Thetford is available as an option.

In our unique front kitchen models, the kitchen is located in the front of the caravan with generous counter space and natural light from the large panorama window.

For ultimate bedroom comfort, there is an upholstered headboard in padded soft faux suede with a printed 3D-pattern. Top-quality spring mattresses and thick mattress toppers make your KABE-bed extra luxurious. A modern touch-function switch is also included.

All Royal-bathrooms have Light Concrete countertops. In our TDL-models, you will find a matching laminate on the wall in the shower and on the wall behind the mirror.

In the entry, you will find a bar cabinet with horizontal bottle storage and a slim wardrobe with two spacious drawers at the bottom.

For our 2025-models, you can order a 3500 kg chassis as an option for Royal 880-length!

A wireless charger for your mobile phone is included in our Royal models. It's located in the entry. Digital Audio Broadcasting (DAB) is standard for the multimedia player.

A practical lock for the watertank cover is standard.

KABE Smart Level is available as an option.

All Royal models feature specially designed 15" rims and 17" rims are available as an option.

News! Updated design for the entry area with space for a larger TV – up to 32 inches!

- ▶ Updated kitchen counter.
- ▶ Modern square sink with a new black faucet.
- ▶ New gas stove with four burners and an oven with a glass front.
- ▶ New corner stove for smaller models (Royal 540 GLE, 560 GLE, 600 GLE och 600 TDL).
- ▶ Large new Thetford refrigerator in matte black metallic (not for Royal 630 TDL FK).
- ▶ Kitchen drawers with new top-mount black handles.
- ▶ Stylish new black handles for wardrobe doors, storage and cabinets.
- ▶ All chrome interior details, such as reading lights, faucets and shower now feature a black finish.
- ▶ New option: Induction stove.
- ▶ New option: L-shaped kitchen for Royal 560 XL and 600 XL.
- ▶ New option: 3500 kg chassis for 880-models!

KABE Imperial

The Imperial-series defines the premium segment of caravans. You will recognize the exclusive eye-catching exterior with its smooth, high gloss panels and our 3D-graphics.

Imperial includes a unique new hybrid stove 'gas-under-glass', modern cabinet doors, rich leather upholstery or Eco-friendly Las Vegas artificial leather, a microwave, a flush toilet with a ceramic bowl, air conditioning, specially designed premium sound system and KABE Smart D electrical system to name a few. KABE Imperial is built for those who want the very best.

KABE Smart Level with three useful functions is included in the Smart D-panel. Smart Level monitors the gas level (with the use of one gas bottle, not for composite bottles), tyre pressure and the tilt of the caravan when parked. The panel displays the gas level so you don't have to worry about unexpectedly running out during your trip. The tyre pressure sensor helps you maintain the correct air pressure in the tyres, ensuring safer and more fuel-efficient driving. Smart Level also includes a level indicator that shows the caravan's tilt during setup, which affects both comfort and functionality in your living space. Standard in Imperial.

All Imperial models are listed on page 88.

Standard equipment

In addition to the standard equipment for Estate (p. 51), Gemstone (p. 59) and Royal (p. 69) – our top-of-the-line KABE Imperial-series also includes:

- ▶ 17" Diamond Cut aluminium rims
- ▶ Smooth exterior panels with Innovation Design graphics
- ▶ Heki II skylight with surround lighting
- ▶ Total weight 2000 / 2650 kg
- ▶ Dometic Fresh Jet FJX4 2200 air conditioner
- ▶ Alde zone heating
- ▶ Unique new hybrid stove 'gas-under-glass' (with an induction surface and two gas burners) and a built-in oven
- ▶ KABE AutoDrain (automatically empties the water system)
- ▶ Microwave positioned under the refrigerator
- ▶ Leather or artificial leather upholstery
- ▶ Slide-out sofa
- ▶ Swivel flush toilet with a ceramic bowl
- ▶ KABE Premium Sound System with DAB
- ▶ KABE Smart Level

See options for Imperial on pages 96-99.

News! Unique new hybrid stove 'gas-under-glass' and new built-in oven with a glass front!

- ▶ Updated entry area with space for a larger TV in all floor plans. The adjustable TV-mount is placed on the wall in the entry. The new design can fit a TV up to 32 inches in size.
- ▶ Updated kitchen counter.
- ▶ Modern square sink with a new black flexi-faucet with flexible extension.
- ▶ Large new Thetford refrigerator in gloss black metallic (not for Imperial 630 TDL FK).
- ▶ Kitchen drawers with new top-mount black handles.
- ▶ Stylish new black handles for wardrobe doors, storage and cabinets.
- ▶ All chrome interior details, such as reading lights, faucets and shower now feature a black finish.
- ▶ New option: L-shaped kitchen for Imperial 560 XL and 600 XL.
- ▶ New option: 3500 kg chassis for 880-models!

KABE Imperial 2025

In Imperial, you will find our most exclusive interior. The wood laminate Atlas Zeder with a cosy warm brown tone is complemented by a light floor and overhead cabinet doors in Cashmere (both front and back), creating a beautiful contrast. The kitchen cabinets in our Imperial-kitchen feature high-gloss doors in a soft crème shade, Sabbia High Gloss.

With brand new design accents such as black chrome handles and hooks, we create a luxurious feeling of modern elegance.

In addition to all the equipment from our other kitchens, there is an exciting innovation in the Imperial-kitchen – the hybrid stove 'gas-under-glass'. With an induction surface and two gas burners neatly hidden under the smooth cooktop, the new hybrid stove is both aesthetically pleasing and easy to clean. The microwave is placed under the refrigerator to provide more space in the kitchen cabinets and to preserve the clean lines in the kitchen.

The living area is furnished with carefully selected materials and timeless design. Relax in the spacious sofa with leather or artificial leather upholstery (standard). Adjustable headrest is an added bonus, move it up and down or from side-to-side for even more comfort.

The light fixture in our front kitchen (FK) models and the ceiling light are covered in faux suede. The Heki II skylight is framed with a laminate fixture with integrated lights.

Our updated entry provides space for a larger TV – up to 32 inches! Our CXL and CTDL solutions retain their layout with the TV-mount placed in the backrest of the sofa (photo on the right). In the entry, you will also find a bar cabinet with horizontal bottle storage and a slim wardrobe with two spacious drawers at the bottom.

A modern smart switch with touch-function is included in the bedroom and our XL-bed features the reading light Duospot with three switches.

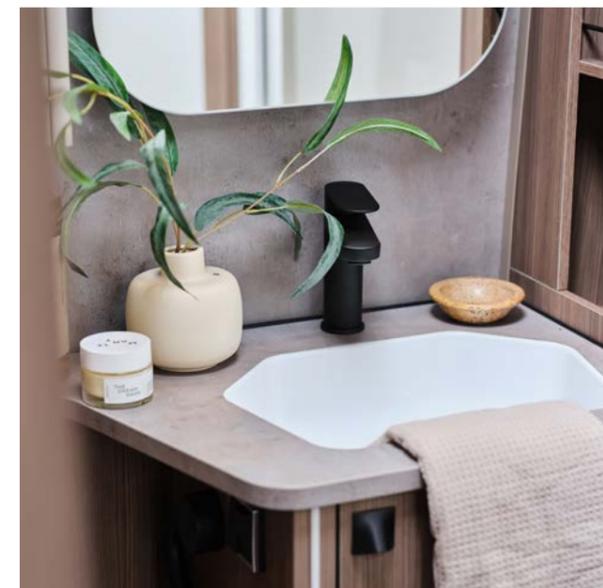

The large shower in our TDL-models features a modern wall design that matches the Light Concrete laminate from the bathroom countertop. The wall behind the stylish mirror matches the countertop as well.

With the KABE Smart D Remote app, you can manage the caravan's control panel from anywhere. Available as an option for Imperial-models. To maximize your media choices, a wireless router is standard. Imperial is equipped with Premium Sound System. Relax and enjoy your favourites!

The Imperial-series includes the latest generation AC from Dometic (Fresh Jet FJX4 2200) to ensure that you are as comfortable as possible, even on the hottest summer days (read more on page 32).

A lock for the watertank cover is standard.

The Imperial series is equipped with exclusive 17" rims in a Diamond Cut-design, entirely unique to KABE.

- ▷ Wood laminate: Atlas Zeder
- ▷ Floor: Light
- ▷ Overhead cabinet doors front/back: Cashmere
- ▷ Kitchen cabinet doors: Sabbia High Gloss
- ▷ Kitchen countertop and backsplash: Light Concrete laminate

Options for Royal, Imperial

Finishing touches for your KABE. We know what it takes to build comfortable caravans. Every KABE includes a generous list of standard equipment. In fact, we include many features that our competitors charge extra for. But we all have different needs, and we want to provide you with the opportunity to customise your caravan to perfection for you and your family. We offer a wide range of accessories to enhance your KABE-experience.

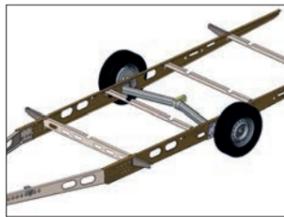

BODY

17" aluminium rims (standard in Imperial)

Tandem axles
Royal / Imperial 630 TDL
Royal 630 TDL FK
Royal 630 GLE
(standard in Imperial 630 TDL FK)

Total weight:
• 2000 kg (standard in Imperial)
• 2300 kg (single axle 600-630)
• 2650 kg (standard for Imperial tandem-models)
• 2800 kg
• 3500 kg (880-models)

Electric step

Panorama window in the front (only in KS, standard in FK-models)

Tinted windows

Front door with a tinted window

CLIMATE / HEATING

AC Dometic Fresh Jet FJX4 2200 (standard in Imperial)

Solar panel. Produce your own electricity! Environmentally friendly, easy and practical. The superior quality solar panel package from GoCamp provides 140 W. The panel's frame is constructed in heavy aluminium, with aerodynamic spoilers that reduce the wind noise when driving.

If you are free camping, the options large battery and solar panel are recommended.

Alde Flow in boiler 3030 Plus. With Alde Flow you can take a warm shower for as long as you like! Alde Flow is a separate warmwater tank that can be connected to the glycol heating system. The tank preheats the fresh water before it reaches the boiler's ordinary hot water heater and provides constant flow of warm water.

Water purification system – Alde AquaClear UV-C (Alde Compact 3030 boiler). Efficient water purification that protects the user in a gentle and Eco-friendly way. Unwanted viruses and bacteria, pesticides and chemicals are removed. The water is disinfected with UV-C light generated from LED's. In addition, the water passes through a carbon filter that removes any odour, bad taste and colour.

KITCHEN

NEW OPTION! Induction stove (standard in Imperial)

NEW OPTION! Corner kitchen for 560 XL and 600 XL

Compressor refrigerator. Refrigerator with a 12 V compressor. Provides a spacious refrigerator with a generous freezer compartment.

Microwave under the refrigerator (standard in Imperial, in FK-models it is located under the counter)

LIVING ROOM

Removable table support (standard in FK-models, not for 540 GLE)

Hollywood leather upholstery
• Front seating
• Front seating + middle dinette (standard in Imperial)

Baltimore leather upholstery
• Front seating
• Front seating + middle dinette (standard in Imperial)

NEW! Las Vegas artificial leather
• Front seating
• Front seating + middle dinette (standard in Imperial)

BEDROOM

Electric adjustable headboard (standard in Imperial, not for E9 bed)

Loft bed cabinet with doors (only certain bedroom solutions and for middle dinette area)

Fitted carpet

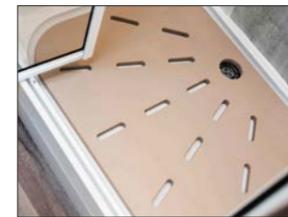

Storage under bunk bed (B14, E9)

BATHROOM

Grand Lit B2 (extra large bed) – convert two single beds to one double bed (only in GLE-models)

Wood insert for the shower – Royal, Imperial (TDL, DXL)

Theftford toilet with a ceramic bowl (standard in Imperial)

Cinderella combustion toilet. Cinderella is a modern and environmentally friendly toilet solution with a large capacity and high operational reliability. Paper, urine and faeces are burned at a high temperature resulting in a minimal amount of ash (about one cup per person per month). Clean, hygienic and odourless (for TDL-models and 780 DGLE).

Mirror image TDL-bathroom for the following Flexline-solutions: E2, E8 (except for 630 TDL FK, Cinderella toilet or 880 TDL with E8-solution)

Mirror image floor plan for bedroom and bathroom, E8-solution

Shower instead of console (DXL)

Fan in the shower (TDL, 780 DGLE)

ELECTRIC / TECHNOLOGY

Shower pump (TDL-models)

Electricity meter in the electrical box

AGM 130 Ah battery incl. case

Mover:
• Tandem axle
• Single axle

Converter DC121210 – Booster (reinforced charge while driving)

External antenna for router

150 Ah lithium battery

Duocontrol has a built-in automatic gas switch, reduction valve and collision sensor which is triggered on impact with a G-force of 3.5 G. The supply of gas is shut off immediately to avoid a gas leak. Duo Control is approved in all of Europe and allows for the gas to be on while driving.

ADDITIONAL EQUIPMENT

Direct drain – wastewater bypass tank (standard in Imperial)

City water

70 litre water tank (not for 600 TDL, 630 TDL/TDL FK)

ELECTRIC / TECHNOLOGY

KABE Smart D Remote. KABE Smart D Remote* enables you to manage the control panel remotely, from anywhere. KABE Smart D Remote is built with a 4G router with an internal antenna and a mobile modem (external antenna is available as an option). In addition to managing heating, lighting and keep track of the caravan's functions and alarms via your cell phone, you also have access to a wireless internet connection on the road.

* With your purchase of KABE Smart D Remote, a 36 month subscription is included. After 36 months, you will pay a yearly fee for the use of the app. A separate mobile data subscription is also required.

KABE Smart Level – makes your KABE-life even simpler!

The Smart D panel includes KABE Smart Level with three useful functions. Smart Level tracks your gas level (with the use of one gas bottle, not for composite bottles), tyre air pressure and the tilt of the caravan. Don't worry about running out of gas in the middle of your trip, the panel displays your current gas level. The tyre air pressure sensor helps you ensure that the tyres have the right air pressure for a safe and fuel-efficient drive. Additionally, a level indicator is included with KABE Smart Level. When your caravan is parked, the display shows your caravan's tilt. An important factor for a pleasant and functional stay.

With KABE Smart Level, we improve your KABE-life even a bit more! (standard in Imperial)

ECO PACKAGE

150 Ah lithium battery with battery sensor

Solar panel

The Eco package is perfect when you want the freedom to camp anywhere for a longer period of time, without worrying about the supply of electricity. The new 150 Ah lithium battery is more durable than an ordinary battery and with solar panels you can produce your own electricity.
